Touched By A Guardian Angel

Is about kindness, connection, and support when it matters most.

We are not a religious organisation. The term '*Guardian Angel*' is simply a metaphor for people helping people.

To us, a guardian angel can be a friend, a stranger, a listening ear, a moment of understanding, or a bit of hope when life feels heavy. It's about being there for one another with compassion, respect, and empathy.

We welcome everyone, regardless of background, belief, colour, sexuality, or circumstance.

Our aim is simple: to create a supportive, inclusive space where people feel welcomed, valued, seen, supported and never alone.

Because sometimes, just one kind moment is enough to make a difference.
